

Sebring Convertible Limited in Inferno Red Crystal Pearl.

Sebring is the best-selling convertible in America<sup>[1]</sup>

DESIGN

From any angle, Sebring Convertible's stance radiates a poise that invites glances as effortlessly as it invites the sun itself. The availability of two distinctively different, fully automatic retractable tops confirm Sebring's design ingenuity. Just one look proves it. Take just one ride, and you will never forget it.

## TECHNOLOGY

Some car companies offer gadgetry. We offer purposeful technology. Like our uconnect systems, for example. uconnect gps provides entertainment, information, communication, and navigation, all in the space of a traditional stereo. Its 30GB hard drive allows you to store photos and playlists, as well as rip and stash digital music files from CDs, integrated USB port, or exterior input jack. Its 6.5-inch touch-screen LCD monitor allows for seamless navigating through uconnect functions.

Sebring Convertible Limited interior in Dark Slate Gray Royale Leather trim.

Sebring Convertible Limited interior in Medium Pebble Beige/Cream with Tortoiseshell-style and Satin Silver accents.

## INTERIOR

Heated/cooled cup holder. Cold morning, hot beverage. How do you keep it that way? Opt for Sebring Convertible's available heated/ cooled cup holder. What about a nice cool beverage during a long, hot drive? No problem. The heated/cooled cup holder is standard equipment on Limited and included in the available Electronics Convenience Group package on Touring.

(2) Windscreen. There are times when you want the wind in your hair and there are times when you do not. Take any concern off your mind with an available windscreen. Developed in the 100 mph-capable Chrysler Aero-Acoustic Wind Tunnel as part of Sebring Convertible's goal of delivering you a genuinely quiet ride. An exceptionally stiff body was designed with computer-aided engineering that orchestrated the various frequencies of individual components and systems to achieve maximum noise reduction for the total vehicle. From its aerodynamic headlamp modules to its low-profile windshield wipers, exterior mirrors, acoustic engine covers, extensive Pur® foam cavity sealing, and wind-sculpted sheetmetal, Sebring Convertible offers a markedly improved coefficient of drag (Cd) and enables the wind to whisper, rather than roar.

Atmospheric lighting. Sebring Convertible's cabin benefits from the elegance of atmospheric lighting, which helps passengers find their way in and out of the vehicle and bathes the rear footwells in the coolest of moods.

(4) Trunk capacity. If you think the trunk capacity of a convertible needs to be somewhat restricted by definition, think again. Sebring Convertible offers over 12 cubic feet of cargo space with the retractable top up. But the true test comes when the top is down, and your trunk still has more than enough room to easily fit two full-size golf bags.

**Stain Repel.** This available stain-resistant, odorresistant, antistatic seat fabric<sup>(1)</sup> employs a dual-action technology woven into the fabric itself to help repel and release stains without solvents.

(5) Seating for four adults. Two-door access to comfortable seating for four is practical and convenient. Once inside, your rear-seat passengers will enjoy stretching out over a surprisingly large area with more than 33 inches of rear-seat leg room.

Heated seats. Take extra comfort in available, heated, leather-trimmed seating surfaces. This cozy feature is standard on Limited and available on Touring as part of the available Special Touring Group.

**Power seats.** Standard driver and front passenger six-way power seats allow for a highly personalized level of comfort.

Folding luggage protector. A standard folding luggage protector shields the retracted top from cargo in the trunk, and vice versa.

Sebring Convertible Limited instrument panel with Tortoiseshell-style and Satin Silver accents.

# TECHNOLOGY

(1) **uconnect** The 6.5-inch touch-screen uconnect gps provides entertainment, information, communication, and navigation, all through an AM/FM/CD/DVD<sup>(1)</sup> stereo system. A 30GB hard drive allows you to store photos, playlists, maps, points of interest, as well as rip, stash, organize, and shuffle up to 4,200 digital music files from CDs, integrated USB port, or exterior input jack. The touch-screen allows you to easily change radio stations and play digital audio files. You also get the convenience of turn-by-turn navigation with real-time traffic updates using **SIRIUS® Satellite Radio**.<sup>[2]</sup> The included **uconnect phone** provides hands-free, voice-activation capability with your Bluetooth® compatible phone.

 teconnect studios Like a menu offering the best of in-vehicle technology, uconnect studios features standard SIRIUS Satellite Radio. Gain access to over 130 channels, including 100% commercial-free music, sports, news, talk, entertainment, traffic, and weather.

Succonnect phone Go high-tech with an in-vehicle, voice-activated communication system that allows you to talk on your Bluetooth compatible phone virtually hands-free. Comes bundled with uconnect gps or can be added as a stand-alone feature.

Succonnect web Turn your vehicle into a WiFi Hotspot. This Authentic Chrysler Accessory by Mopar allows every passenger in your vehicle to harness the power and entertainment value of the Internet at the same time. Subscription required, sold separately.

Boston Acoustics? Six world-renowned, premium Boston Acoustics speakers and a 276-watt amplifier are standard on Limited.

#### Steering wheel-mounted audio controls.

Conduct your own audio symphony without ever taking your hands off the steering wheel.

(2) Remote Start. Sebring Convertible offers a remote start feature that operates by a push button on the key fob from up to 35 feet away. Without a doubt, the Remote Keyless/Illuminated Entry System puts a world of confidence and convenience at your fingertips. So here is the question: How do you roll down a car window from outside the car? Answer: When your car is a Sebring Convertible, you simply push a button to operate windows from the key fob.

(3) One-touch power-top button. Operate the power-retractable top from a conveniently located button on the instrument panel. It is all an automatic wonder of technology. There is no slow and cumbersome unlocking or locking of latches. And even if you are outside your vehicle, you can perform the very same operation by pushing the button on your key fob. It has simply never been any easier to drop your top.

4 Automatic temperature control system. Easy to read and easy to operate, Sebring Convertible's automatic temperature control system helps make the most of your comfort while in your mobile environment.

<sup>10</sup>uconnact in-dash DVD capability is not available in all states. See your dealer for details. <sup>an</sup>SIRIUS, the SIRIUS dog logo, and related marks are trademarks of SIRIUS Statilitis Radio Inc. All other trademarks, service marks and logos are the property of their respective owners. All rights reserved. Subscription required. Pricing and programming content are subject to change. Not available in Alaska and Hawaii. For full Terms & Conditions, visit SIRIUS.com

# SAFETY AND SECURITY

(1) Five-Star side crash test rating. Chrysler Sebring Convertible has earned a Five-Star crash test rating for side impact<sup>(1)</sup> This represents the highest possible side crash safety rating from the National Highway Traffic Safety Administration (NHTSA).

Air bags. Standard advanced multistage driver and front-passenger air bags<sup>(2)</sup> provide nearly instantaneous front-seat occupant impact protection by matching air bag output to crash severity.

Thorax supplemental side air bags<sup>[2]</sup> Extra side-impact protection for driver and front seat passenger is standard on all trim levels.

(2) Electronic Vehicle Information Center (EVIC). Important stats such as distance to empty, temperature reading, compass, and average fuel economy are digitally displayed on the EVIC. A Tire Pressure Monitoring Display is also part of the EVIC. As an additional safety benefit, all Sebring Convertible models include a Tire Pressure Monitoring Warning Lamp.

3 Sentry Key® Theft Deterrent System. Help deter vehicle theft by making it virtually impossible to start the engine without possession of a properly encoded key. The same key fob operates the power-retractable top, power deck lid, remote start, and **remote power window down** functions.

Hardtop security. Indulge in the pleasure of open-air driving with complete peace of mind. Sebring Convertible Limited and Touring offer the extra security of a hard convertible top. With this hardtop option, you really do get the best of both worlds.

#### Some little things offer big advantages. In a

convertible that strives to avoid compromise, it was imperative for Chrysler's design engineers to give Sebring as many advantages as possible. Sebring features front seat belts with pretensioners and load limiters, an energyabsorbing steering column and steering wheel, a body constructed with side-impact beams in every door, a front crumple zone, and an enhanced rear body structure.

#### 4 Electronic Stability Program (ESP).<sup>(3)</sup>

Designed to assist drivers in maintaining control of their vehicle at all times, ESP works in conjunction with Brake Assist and all-speed traction control to help maintain the vehicle's directional stability. Brake Assist helps the driver achieve maximum controlled braking in less than ideal situations.

Antilock Brake System (ABS). This standard safety and security feature affords premium stopping power using state-of-the-art electronics, providing faster response. ABS senses less than ideal conditions and helps to prevent wheel lockup offering steering control under extreme braking and/or slippery road conditions.

Lifetime Powertrain Limited Warranty<sup>[4]</sup> As the owner of a Sebring Convertible, you deserve the ultimate peace of mind, so we provide you with the ultimate warranty: the Chrysler Lifetime Powertrain Limited Warranty. The first to be offered by any automaker. Ever. It demonstrates the confidence we have in our ability to produce quality vehicles with reliable and durable powertrains warranted to last a lifetime.

<sup>111</sup> Star retings are part of the U.S. Department of Transportation's adversars gov program (www.safercar.gov). <sup>102</sup>Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly for the child's age and weight. <sup>110</sup>No system, no matter how sophilicitated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which now, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear seat belts. <sup>14</sup>No deductible. See dealer for a copy of limited warrenty details. Nov-Transferable. Not weakleb on cortain flast.

#### RETRACTABLE TOP SYSTEM

Retractable top system. Sebring Convertible's retractable top system exemplifies the Chrysler mission of delivering ingenuity with ease. It was designed to open and close the tonneau cover and unlock, retract, and stow the entire top system with no more than a button-push required on behalf of the driver. Its high-pressure hydraulicpowered flexibility allows it to disappear — whether in hardtop or soft top form — into the trunk while still providing enough room for two golf bags. A sensor in the trunk detects if the folding luggage protector is in place, ensuring that the trunk contents and the top itself are protected prior to the retracting and stowing of the convertible top. Sebring Convertible is the first four-passenger convertible to offer either a power cloth soft top or retractable hardtop. Other Chrysler group firsts include: convertible-top-down and expressdown-front-windows button on the key fob; three-piece power-retractable hardtop; automatic latching for soft top or retractable hardtop; and power hard tonneau.

Two distinct tops. Choose from the standard cloth soft top or the available retractable hardtop.

**One-touch electronic latching top.** Opening and closing a convertible top has never been easier, thanks to the all-electronic latching system, standard across all three Sebring Convertible trim levels.

### TRIM LEVEL LINEUP

LIMITED Designed to invigorate in every way, it gleans sophistication from a blend of elegance, contemporary design, and sleek lines outside and in. And goes far beyond ordinary convertibles by offering a truly premium interior with standard leather-trimmed seating for four adults, heated front seats, a six-speaker Boston Acoustics® sound system, and choice of standard cloth soft top or available retractable hardtop.

> TOURING Well-equipped is a definite understatement with standard antilock brake system (ABS), stain-resistant, odor-resistant, antistatic Stain Repel seat fabric,<sup>(1)</sup> fold-flat front-passenger seatback, 17-inch aluminum wheels, and choice of standard cloth soft top or available retractable hardtop. <sup>(1)</sup>Not compatible with aftermarket fabricprotecting costing.

LX Offering so much more than mere practicality, it arrives complete with an extensive list of standard equipment and features including 4-speed automatic transmission, Remote Keyless/ Illuminated Entry, power windows and locks, air conditioning, electronic speed control, AM/FM six-disc CD/DVD radio with MP3 auxiliary input jack, and standard cloth soft top.

2.4L World Engine. For real fuel efficiencies and genuine fourpassenger convertible comforts, this powerful I-4 engine delivers an EPA estimated 20 city, 29 highway mpg. The standard 2.4L World Engine utilizes dual Variable Valve Timing (VVT) to produce an exceptionally smooth and powerful 173 hp. It is matched to an equally advanced 4-speed automatic transmission.

2.7L Flex Fuel V6 Engine.<sup>(1)</sup> The 2.7L Flex Fuel V6 engine produces 186 hp and 191 lb-ft torque, all while sipping gasoline or cleaner-burning E85. This modern power plant offers an EPA estimated 18 city, 26 highway mpg matched to an advanced 4-speed automatic transmission.

3.5L High Output engine. The available 3.5L High Output V6 engine is matched to a highly evolved 6-speed AutoStick® transaxle which generates 235 hp and 232 lb-ft of torque. Perhaps most surprisingly, all of this speed and power comes complete with an impressive EPA estimated
16 city, 26 highway mpg.

Some of the equipment shown or described throughout this catalog is available at extra cost and/or may be subject to late availability. See your dealer for the latest information.

# AUTHENTIC CHRYSLER ACCESSORIES

When you enhance your Sebring Convertible with Authentic Chrysler Accessories by Mopar, you gain far more than sophisticated style, premium protection, powerful performance or engaging entertainment. You also benefit from the authentic difference found only in an original equipment accessory. It is a difference you will recognize in the higher standards and tighter tolerances required of original equipment accessories. And one you will appreciate in our stricter testing measures, from impact performance tests to harsh on- and off-road durability testing. Choose the full line of accessories that feature a fit, finish and functionality designed specifically for your Sebring Convertible. Visit us at mopar.com

AUTHENTIC CHRYSLER ACCESSORIE:

Authentic Chrysler Accessories by Mopar include a Front Air Deflector.
